SAJID ALI

Senior Frontend Engineer | React.js · Next.js · TypeScript · Node.js · Playwright · AI Integration
sajidhgn@gmail.com | +966-57-645-2059 | LinkedIn | GitHub | Portfolio
Riyadh, Saudi Arabia **Transferable Iqama – Immediate Availability**

PROFESSIONAL SUMMARY

Senior Frontend Engineer with **6+ years** delivering scalable **SaaS, eCommerce, and education platforms** using **React.js, Next.js (App Router), and TypeScript**. Achieved a **45% improvement in Core Web Vitals** and **90+ Lighthouse scores** across multiple production applications. Brings full-stack capability across **Node.js, GraphQL, and Prisma ORM**, with hands-on experience in **Playwright E2E testing, CI/CD pipelines, and Headless CMS** architectures. Known for leading frontend architecture decisions, improving code quality through TypeScript and code reviews, and collaborating effectively in Agile teams. Based in **Riyadh, KSA** with a **transferable Iqama** and **immediate availability.**

CORE COMPETENCIES

Frontend: React.js, Next.js (App Router), TypeScript, Redux, Zustand, Context API, Tailwind CSS, Responsive Design, WCAG 2.1 Accessibility
Backend: Node.js, Express.js, REST APIs, GraphQL, WebSockets, JWT Authentication, RBAC
AI Integration: OpenAI API, Gemini AI, AI-powered SaaS features, Chatbot integration
Database & ORM: MongoDB, MySQL, Prisma ORM
CMS & Platforms: Headless WordPress (WPGraphQL), Shopify (Headless), Storybook
Performance & Testing: Core Web Vitals, SEO Architecture, Lighthouse CI, Playwright (E2E), Jest
DevOps & Tools: Docker, GitHub Actions, CI/CD Pipelines, Vercel, Netlify, Agile/Scrum

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer — OxCoders (Remote) | June 2024 – Present

- Architected scalable Next.js (App Router) + TypeScript frontend systems, improving Core Web Vitals by **45%** and achieving **90+ Lighthouse scores** across all client projects
- Designed and enforced **RBAC (Role-Based Access Control)** with JWT authentication, securing multi-tenant SaaS dashboards for enterprise clients
- Introduced **Playwright E2E testing** framework from scratch, reducing production regressions by standardising test coverage across critical user flows
- Integrated Headless WordPress (WPGraphQL) CMS architecture, improving SEO rankings and cutting content delivery latency through ISR and dynamic routing
- Led **TypeScript adoption** and established code review standards, reducing bug rate and improving team-wide code consistency
- Designed and consumed REST & GraphQL APIs in collaboration with backend teams, enabling scalable microservice integrations

Senior Frontend Developer — Dycoders Pvt Ltd. (Remote) | July 2023 – May 2024

- Delivered **3+ high-performance SaaS applications** using React.js and Next.js, consistently hitting 90+ Lighthouse scores under tight sprint cycles
- Built reusable, type-safe component libraries in TypeScript, cutting new feature development time by **20%** across the engineering team
- Developed Headless WordPress and Shopify frontend solutions, improving client SEO traffic and page load speed for eCommerce platforms
- Collaborated with backend teams to design scalable REST API integrations, supporting real-time data features across SaaS dashboards
- Participated in Agile sprints, contributing to architecture discussions and frontend performance audits using Chrome DevTools and Lighthouse CI

Frontend Developer — Tanbits | August 2021 – June 2023

- Built and maintained a TypeScript component library used across 5+ client projects, improving development consistency and reducing QA cycles

- Delivered SSR and ISR-based Next.js applications with **90+ Lighthouse scores**, improving page load performance for high-traffic platforms
- Introduced Playwright smoke tests on critical user journeys, catching regression bugs before production deployments
- Collaborated with design and backend teams in Agile sprints to ship responsive, cross-browser-compatible interfaces

Frontend Developer — Mdhov Digital Agency (Remote) | July 2019 – July 2021

- Developed custom Shopify and WordPress themes for 10+ clients, improving average conversion rates through performance and UX optimisation
- Led migration from legacy codebase to **React-based architecture**, increasing development efficiency by **20%** and reducing technical debt
- Optimised frontend assets (images, fonts, JS bundles), reducing average page load time by **22%**

UI/UX Developer — Teambee Designers | January 2017 – July 2019

- Built pixel-perfect UI components with **99% design accuracy** across web and mobile breakpoints
- Reduced application load time by **22%** through asset optimisation and lazy loading techniques

---

FEATURED PROJECTS

OunLab — AI Project Management SaaS | oun.ai

React.js · Node.js · WebSockets · OpenAI API

- Built a real-time SaaS platform for project and task management with live collaboration features via WebSockets
- **Integrated OpenAI API** to deliver an AI assistant for automated task generation and project summarisation
- Architected scalable frontend state management to support concurrent live user sessions

PeepSkill — Sports Talent Discovery Platform | peepskill.com

Next.js · Node.js · WebSockets · React.js

- Built a U.S.-facing sports social network connecting athletes, coaches, and scouts with real-time messaging and activity feeds
- Engineered WebSocket event handling to support high-concurrency live sessions across a geographically distributed user base
- Optimised Next.js bundle size using dynamic imports and code splitting for fast initial page loads

Eduhubpak — Headless Education Platform | eduhubpak.com

Next.js · Tailwind CSS · Headless WordPress (WPGraphQL)

- Built a high-performance education platform using SSR/ISR architecture, achieving top Google search rankings for target keywords
- Optimised WPGraphQL API queries and implemented dynamic routing for scalable, SEO-friendly content delivery

ParisianGypsy — eCommerce Platform | pg-shop.cognitivebeam.com/

React.js · Node.js · Prisma ORM · MySQL

- Developed full-stack eCommerce platform with Stripe/PayPal payment gateway integration and optimised Prisma ORM backend queries
- Implemented responsive product catalogue, cart, and checkout flows with cross-browser compatibility
